

Forms Design Using Zoho Creator

AIM

To create and manage student-related forms using **Zoho Creator** for storing student profile, academic, guardian contact, and course enrollment information.

PROCEDURE

1. Create a new application named **Student Management System** in Zoho Creator.
2. Create the following four forms:
 1. **Student Profile** – to store basic student details such as Student ID, Name, Date of Birth, Gender, Email, Phone Number, and Address.
 2. **Academic** – to store academic details such as Student ID, Department, Semester, CGPA, Attendance, and Academic Year.
 3. **Guardian Contact** – to store guardian information such as Guardian Name, Relationship, Contact Number, Email, and Address.
 4. **Course Enrollment** – to store course enrollment details such as Student ID, Course Name, Course Code, Semester, Enrollment Date, and Faculty Name.
3. Add suitable field types such as Single Line, Number, Email, Phone, Date, Dropdown, and Radio fields.
4. Configure the required fields and arrange the fields appropriately.
5. Enter sample student records into each form.
6. Preview and verify all the forms to ensure that the data is entered and stored correctly.

OUTPUT

The screenshot displays the Zoho Creator form design interface for an application titled "Student Management System". The main workspace shows a form layout with several fields, each with a red asterisk indicating it is a required field. The fields are arranged in a grid-like structure. On the left, there is a "Basic Fields" panel with icons for Name, Email, Address, Phone, Single Line, Multi Line, Number, Date, Time, and Drop Down. On the right, there is a "Field Properties" panel with sections for Field name, Field link name, View Field References, Validation, Display Fields, and Data Privacy. The bottom of the interface shows a status bar with a trial expiration notice, an upgrade button, and a help button.
